CAMDEN WANG, PHD

Camden Wang is a quantitative associate for the disciplined alpha team at Loomis, Sayles & Company. He is responsible for assisting with the integration of research and technology for the team's investment process as well as the development and implementation of tools for attribution and risk management. Camden joined Loomis Sayles in 2020. Previously, he was a quantitative summer associate in the wholesale credit group at JP Morgan, where he implemented a wide range of machine learning and neural network methods to model defaults and credit downgrades for institutional loans. Camden began his investment industry career in 2019. He earned a BS from the University of Science and Technology of China and a PhD from the University of Pittsburgh.
