

Global Aggregate Bond in USD (High Yield Eligible)

Management Team

David W. Rolley, CFA
Lynda Schweitzer, CFA
Scott M. Service, CFA

Objective

Seeks to identify undervalued securities worldwide and create diversified global bond portfolios that provide risk-adjusted performance superior to the benchmark through balanced contributions of top-down and bottom-up sources

Highlights

- Our investment philosophy combines top-down macroeconomic insights with intensive bottom-up credit research across major sectors of the bond market
- Our sovereign research universe is comprised of more than 100 countries, and portfolios are typically invested in 25 to 35 countries
- Invests across a broad global universe of securities including government, quasi-government and agency securities, corporate credits, and asset-backed securities including mortgages
- Seeks to identify and create diversified portfolios with undervalued and preferably discount securities across relevant risk factors, including country, currency, curve, sector and specific credit
- Seeks to manage risk through diversification and continuous monitoring of absolute risk and tracking error from the benchmark
- Below investment grade is typically limited to 20%
- Emerging markets debt allocation: generally less than 25%
- Typical tracking error: 1% to 4%, depending on the market environment
- Typical portfolio: greater than 200 issues

KEY RISKS

Credit Risk, Issuer Risk, Interest Rate Risk, Liquidity Risk, Non-US Securities Risk, Currency Risk, Prepayment Risk and Extension Risk. Investing involves risk including possible loss of principal.

Due to rounding, Sector, Currency, Country, Credit Quality, Duration and Maturity distribution totals may not equal 100%. This portfolio is actively managed and characteristics are subject to change. Credit Quality reflects the highest credit rating assigned to individual holdings of the composite among Moody's, S&P or Fitch; ratings are subject to change. Duration and Maturity Distribution Less than 1 Yr. may include cash and equivalents. Cash & Equivalents may include unsettled trades, fees and/or derivatives.

The Composite includes all discretionary accounts with market values of at least \$10 million managed by Loomis Sayles with guidelines prescribing investment in investment grade and high yield foreign bonds as well as U.S. dollar denominated bonds, that are benchmarked against the Bloomberg Global Aggregate or similar Index. The Composite's focus is on global treasuries, securitized bonds and 'spread' product, and the predominant 'spread' product instruments being used are corporate and government-related bonds. The out of benchmark high yield allocation is typically below 20%. The accounts and the benchmarks associated with the Composite are all unhedged and expressed in U.S. Dollars. Prior to June 1, 2024, the Composite minimum account size requirement was \$20 million and prior to July 1, 2016, the minimum account size requirement was \$5 million. The Composite inception date is August 1, 2004. The composite was created in November 2015.
